

ADELSON

EYE & LASER CENTER

Welcome New Patient!

Thank you for choosing Adelson Eye & Laser for your eye care needs. To make your first visit as comfortable as possible, we ask that you prepare in advance and bring several items with you to your appointment. If you have any questions, please feel welcome to call us for help.

- 1 Bring the completed Patient Registration & Medical History forms with you. By completing the forms in advance at your home, you have time to look up or verify hard-to-remember dates or facts. Your list of medications is extremely vital to us, so please take time to complete it.
- 2 Bring all of your current eyeglasses and/or contact lenses. Please bring all of your current eyewear, including non-prescription reading glasses. It is helpful, but not necessary, to have a copy of your written prescription. Attention contact lens wearers: Please be sure to tell us before you come in that you are a contact lens wearer and what you expect from us so that we may discuss our contact lens policies with you.
- 3 Bring your health insurance card(s). We will make a copy. Call first if you do not have any insurance coverage. If you do not have insurance coverage, payment is expected in full at the time of service, unless you have made other arrangements.
- 4 Bring written referral or referral number from your doctor, if your health plan requires it. Some health insurances require a “referral” from your primary care physician before you see Dr. Adelson. It is your responsibility to understand the terms of your insurance. Please call your primary care office a week in advance of your appointment with us to secure your referral. Some insurances offer an annual eye exam benefit without referral. You are welcome to take advantage of that benefit with us, but please note that if you require any testing for pre-existing or newly discovered conditions, you will have to return with a referral to complete the testing. We recommend that you secure a referral if you are diabetic, have cataracts or glaucoma, or have been told you are a glaucoma suspect. If you are experiencing eye pain, migraines or have noticed an increase in floaters or experienced a sudden loss of vision, you should secure a referral.
- 5 Please call if you have questions about your coverage or our insurance affiliations. We accept: Medicare and most Medicare supplemental & replacement plans, most commercial (non-Medicare) insurance plans. Please check your insurance website or contact us if you are unsure of your coverage. We also accept VISA, MasterCard and American Express.

We look forward to meeting you. Please plan to arrive 10–15 minutes early so that we may review your paperwork and introduce ourselves. We strive to run our schedule on time and will not keep you waiting long. Warmest greetings and welcome to our practice!
